

## Motivational and Expert Lecture on Emerging Trends on Wireless Networks

Faculties and Students of Arya College

Prof. Shiv Kumar, Dr. Dharm Singh, Prof. Dhananjay Gupta

A Motivational and Expert Lecture talk on *emerging trends on wireless networks* organized by Special Interest Group- Wireless Networks, Computer Society of India (SIG-WNs, CSI) and Udaipur Chapter at Arya College of Engineering and IT, Jaipur on 23<sup>rd</sup> October 2010 at Arya Auditorium, Jaipur. More than 250 students and faculties of CSE and IT of CTAE were participated in the lecture.

The Motivational and Expert Lecture was delivered on 23rd October 2010 by Dr. Dharm Singh, honorary secretary Udaipur chapter and convenor SIG-WNs, CSI along with inaugural function in presence of Prof. Shiv Kumar, Head CSE, Prof. Dhananjay Gupta, Principal Arya College of Engineering and IT and other dignitaries. Prof. Dhananjay Gupta welcomed the guests and students and expressed his views about the importance of this expert lecturer and congregates the students for showing interest to open the CSI Students branch at Arya College of Engineering and IT. Prof. Shiv Kumar gave a vote of thanks to students and resource persons.

### Motivational Lecture

The motivational lecturer included about the activities and benefits of becoming a member of CSI for the students. More than hundred students deposited member fee's to the college administration.

### **Expert Lecture**

Wi-Fi technology plays an important role in making our life more dynamic, convenient and enjoyable. Wi-Fi uses radio waves - just like cellular phones, TV and radio, to create reliable high-speed connections between computers, printers, gaming devices, cameras phones and home entertainment systems.

We can use Wi-Fi in our home, at work or on-the-go at hotspots worldwide. Today Wi-Fi devices can do everything from sending email to streaming video and linking international video conference calls - even linking us to the Internet from a plane 10,000 feet in the air or just down the hallway. To get where we are today, it has taken a great cooperation between thousands of companies, researchers, and engineers to develop technologies and devices that work together seamlessly.

*Dr Dharm Singh delivering a Lecturer*

### **Formal Opening of CSI Students Chapter**

Dr. Dharm Singh also welcomes the students who are going to join CSI Student chapter of Arya College of Engineering and IT. More than 120 students deposit the registration fee's along with the registration form for CSI student's chapter in the College.
